

Discover the amazing underwater world

with the

ADVENTURE - SALVAGE MARINE REPAIRS FISHING - EXPLORING RESCUE

Natural rubber, full-face mask with 5½" safety glass lens. Special design gives perfect waterproof seal, with or without rubber suit. Breathe naturally through nose and mouth.

The famous Scott Demand Regulator automatically supplies all the air you need in any position. No constant flow. Automatically adjusts to depth pressure. Placed opposite exhaust regulator on mask for easier breathing.

"Air Econo-Miser" conserves air supply while diver's head is above water. Permits breathing surrounding atmospheric air.

Water ejector button removes water from mask. Any seepage resulting from hasty or careless donning is instantly eliminated without swallowing.

A swim beneath the surface of the water is like a journey to an entirely different planet. You quickly and easily adapt to the wonderful underwater world where you glide weightless through its crystal clear, liquid atmosphere.

It's fun to catch lobsters, or recover objects dropped overboard, explore sunken wrecks or just to drift effortlessly through the beautiful marine gardens of fantastically beautiful plants, coral and marine life.

Enjoy America's fastest growing sport in perfect comfort and safety with the Scott HYDRO-PAK. It is manufactured to the most exacting standards by one of the world's largest producers of fine breathing equipment. Only Scott offers nationwide sales and service facilities.
